January – March

Commanders Notes:

Another great year in the books! Thanks to everyone for your help, we couldn't do it without you!

Our volunteer hours for the year were 132, and we donated over \$16,000 to various local charities!

We've had a great response on our membership, 15 new members! **If you haven't renewed your membership, please do so as soon as possible.**

If you haven't heard, our oratorical contest we had in January did not have any participants. This was very disappointing considering we reached out to the high school back in September, brought in Dave King National Oratorical Chairman to our meeting with the high school, and exchanged several emails with various staff. I'm not sure what happened or what the disconnect was but I am determined to resolve it. This means a high school student missed out on a very rewarding program and several thousands of dollars in scholarships. We will try again next year and look forward to a better turn out. We did have several district and state representatives show up including our State Commander.
